How to Use This Workbook

Follow these simple steps to help your child get the most out of this workbook.

1. Complete pages daily

Have your child complete **one page** each day. Let them work independently. No need to teach—just help them read instructions if needed.

2. Set the timer for 5 minutes

Use a timer to encourage focus and speed. Remind your child to do their best within 5 minutes. Timing builds speed and efficiency.

3. Track daily progress

Record your child's score and time in the progress tracker at the end of the book. This helps reinforce consistency and improvement.

4. Celebrates after 30 days

Reward your child with the certificate of completion at the back of the book. Praise their hard work and growth to keep them motivated!

Speed Guide

Days 1–10	Under 5 min
Days 11–20	Under 4 min
Days 21–30	Under 3 min
